***EX PARTE QUAYLE***

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

This application is in condition for allowance except for the following formal matters:

***Claims Objection***

Claims 17-30 should be canceled in accordance with the Selection filed 7/1/2008.  
Correction is required.

Claims 2, 5-7 and 9 are objected to in that the recitation "the multi-value current" on line 8 of claim 2 lacks clear antecedent, "any" on lines 1 of claims 5-6 should be changed to --any one--, "a value" on line 7 of claim 7 should be changed to --the value--, and "2i" on line 5 of claim 9 should be changed --the value 2i-- for clarification. Correction is required.

***Allowable Subject Matter***

Claims 1-16 are allowable because the prior art of record fails to suggest "converting the multi-value current data on the data line to binary current data of  $(2n-1)$  bits" as combined in claims 1 and 2.

***Conclusion***

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
